

OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This series of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student will have an opportunity to obtain an education in compliance with the policies in this series.

It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, gender, marital status, national origin, religion or disability. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

In the delivery of the education program, students will treat the employees with respect and students will receive the same in return. Employees have the best interests of the students in mind and will assist them in school-related or personal matters if they are able to do so. Students should feel free to discuss problems, whether school-related or personal, with the guidance counselor or other employees.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

This section of the board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual will mean the legal parents. The legal guardian or custodian of a student and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, are directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, New Hampton Community School District, 710 West Main St., New Hampton, Iowa 50659; or by telephoning (641) 394-2134.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education 8930 Ward Parkway, Suite 2037, Kansas City, MO. 64114 (816)268-0550 or Iowa Dept. of Education, Grimes State Office Bldg., Des Moines, IA. (515) 281-5294. This inquiry or complaint to the federal or state office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

RESIDENT STUDENTS

Children who are residents of the school district community will attend the school district without paying tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. However, a student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education. Further, students who have reached the age of majority and who are still eligible to attend an Iowa secondary school may declare their residence independent of the residence of the parents.

Each case involving the bona fide residence of a student will be decided upon its individual merits by the superintendent.

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. TRUANCY - UNEXCUSED ABSENCES REGULATION

Daily, punctual attendance is an integral part of the learning experience and is required of all students to receive the maximum benefit of the educational program. The habit of good attendance established early is one which helps a person be successful throughout his or her lifetime. More and more, employers, colleges and vocational schools expect good attendance and are checking attendance records for absences and tardies. They are aware that good and prompt attendance indicates dependability in a student.

The education that goes on in the classroom builds from day to day and as a result, absences always cause some disruption in the educational progress of the absent student. Students who are absent may not understand what the teacher is currently presenting, and may also become discouraged with the double burden of keeping current and making up missed work. In order to maintain interest and understanding in the instructional program, students should not expect to be absent any more than is absolutely necessary. Irregular attendance or tardiness by students not only limits their own studies, but also interferes with the progress of those students who are regular and prompt in attendance. Attendance is a shared responsibility that requires cooperation and communication among students, parents and school.

Students who are absent without a reasonable excuse, as determined by the principal, will be assigned the appropriate disciplinary sanction that may include supervised study hall, detention, early bird school, Saturday school, in-school suspension, or other action as determined by the principal.

Reasonable excuses include illness, family emergencies, recognized religious observances and school sponsored or approved activities. Reasonable excuses may also include family trips or vacations if the student's work is finished prior to the trip or vacation. Supervised study hall, detention, early bird school, Saturday school, in-school suspension, or other appropriate disciplinary sanction will be assigned on a two-for-one basis.

Any student, who is unexcused for one or more classes for less than a whole school day, will be assigned to supervised study hall, detention, early bird school, Saturday school, in-school suspension or other appropriate disciplinary sanction for the next __ days during the class period(s) missed. If a student is unexcused for a whole day of classes, he or she will spend the next two days in supervised study hall, detention, early bird school, Saturday school, in-school suspension or other appropriate disciplinary sanction. Parents are expected to telephone the school office to report a student's absence prior to __ a.m. on the day of the absence. Students with unexcused absences may also be referred to the at-risk coordinator.

In the event the student has not completed all of the student's assignments while in supervised study hall, the student will remain out of class and in supervised study hall, until caught up in every class.

School work missed because of absences must be made up within two times the number of days absent, not to exceed 10 days. The time allowed for make-up work may be extended at the discretion of the classroom teacher.

Students will be allowed to make up all work missed due to any absence and will receive full credit for make-up work handed in on time. Teachers will not have attendance or grading practices that are in conflict with this provision.

TRUANCY - UNEXCUSED ABSENCES REGULATION

Students are required to be in attendance, pursuant to board policy, for 180 days per school year unless their absences have been excused by the principal for illness (absences for five or more consecutive days due to illness require a doctor's note), family emergencies, doctor or dental appointment, recognized religious observances and school sponsored or approved activities. Reasonable excuses may also include family trips or vacations if the student's work is finished prior to the trip or vacation. Absences that do not fall within the categories listed above will be considered unexcused unless approved by the principal. Parents are expected to telephone the school office to report a student's absence prior to 8:00 a.m. on the day of the absence.

If a student accumulates _____ unexcused absences in a class, he or she may lose credit for the class. Prior to imposing the loss of credit in one or more classes, the principal will provide the student an opportunity for an informal hearing.

School work missed because of absences must be made up within two times the number of days absent, not to exceed _____ days. The time allowed for make-up work may be extended at the discretion of the classroom teacher.

Students will remain in class until the *principal*, makes a decision regarding loss or restoration of credit. Full credit is awarded to all assignments and tests submitted that meet the teacher's specifications until a decision regarding credit has been made.

If a student loses credit, that fact is recorded in the student's record as an ("*AD*" [*administrative drop*], "*AW*" [*administrative withdrawal*], or [*substitute a term not to include an F for failure or anything that looks like that*]).

A student who loses credit due to excessive absences is assigned to [*supervised study hall, in-school suspension*] for the period(s) in which the course(s) meets or the student may be reassigned to another class or location. A student who, after a hearing before the board, loses credit in all courses due to unexcused absences, will not be allowed to participate in any school activities until the following semester. However, the student is eligible to practice if all other eligibility criteria have been met.

The administration and guidance staff will make reasonable efforts to advise and counsel and may impose discipline upon any student approaching _____ unexcused absences. Such advice, discipline and counseling includes, but is not limited to, oral or written notices to the student and his or her parents, conferences with the student and parents, written contracts, or loss of non-academic privileges such as extracurricular activities, open campus, late arrival, early dismissal, or [*others as added by individual school districts*].

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A SENDING DISTRICT

The school district will participate in open enrollment as a sending district. As a sending district, the board will allow resident students who meet the requirements to open enroll to another public school district.

Parents requesting open enrollment out of the school district for their student will notify the sending and receiving school district no later than March 1 in the school year preceding the first year desired for open enrollment. The notice is made on forms provided by the Department of Education. The forms are available at the central administration office.

Parents of children who will begin kindergarten in the school district are exempt from the open enrollment March 1 deadline. Parents of children who will begin kindergarten will file in the same manner set forth above by September 1. Parents who have good cause as defined by law for failing to meet the March 1 deadline may make an open enrollment request by September 1 unless another deadline applies.

The receiving district will approve open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the start of the school year. The receiving district's superintendent will notify the parents and sending school district by mail within five days of the school district's action to approve or deny the open enrollment request.

The board will not approve a student's request to allow the receiving district to enter the school district for the purposes of transportation.

An open enrollment request out of the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factor for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs. The area education agency director of special education serving the receiving district will determine whether the program is appropriate. The special education student will remain in the school district until the final determination is made.

It is the responsibility of the superintendent to maintain open enrollment request applications and notice forms. It will also be the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

The school district will participate in open enrollment as a receiving district. As a receiving district, the board will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The board will have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The superintendent will take action on the open enrollment request no later than June 1 in the year preceding the first year desired for open enrollment.

The superintendent will notify the sending school district and parents within five days of the school district's action to approve or deny the open enrollment request.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The board, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district are considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Generally, students in grades nine through twelve open enrolling into the school district will not be eligible for participation in interscholastic athletics, at the varsity level during the first ninety days of open enrollment into the school district.

Parents of students whose open enrollment requests are approved by the superintendent are responsible for providing transportation to and from the receiving school district without reimbursement. The board will not approve transportation into the sending district.

OPEN ENROLLMENT TRANSFERS - PROCEDURES AS A RECEIVING DISTRICT

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The area education agency director of special education serving the school district will determine whether the program is appropriate. The special education student will remain in the sending district until the final determination is made.

The policies of the school district will apply to students attending the school district under open enrollment.

It is the responsibility of the superintendent to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

FREEDOM OF EXPRESSION

Student expression, other than student expression in student-produced official school publications, made on the school district premises or under the jurisdiction of the school district or as part of a school-sponsored activity may be attributed to the school district; therefore, student expression must be responsible. Student expression must be appropriate to assure that the students learn and meet the goals of the school activity and that the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

Students will be allowed to express their viewpoints and opinions as long as the expression is responsible. The expression shall not, in the judgment of the administration, encourage the breaking of laws, defame of persons, be obscene or indecent, or cause a material and substantial disruption to the educational program. The administration, when making this judgment, shall consider whether the activity in which the expression was made is school-sponsored and whether review or prohibition of the students' speech furthers an educational purpose. Further, the expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

Students who violate this policy may be subject to disciplinary measures. Employees shall be responsible for insuring students' expression is in keeping with this policy. It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

WEAPONS

The board believes weapons, other dangerous objects and look-a-likes in school district facilities cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

School district facilities are not an appropriate place for weapons, dangerous objects and look-a-likes. Weapons and other dangerous objects and look-a-likes will be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

Parents of students found to possess weapons, dangerous objects or look-a-likes on school property are notified of the incident. Possession or confiscation of weapons or dangerous objects will be reported to law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Students bringing firearms to school or knowingly possessing firearms at school will be expelled for not less than one year. The superintendent has the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas.

Weapons under the control of law enforcement officials are exempt from this policy. The principal may allow authorized persons to display weapons, other dangerous objects or look-a-likes for educational purposes. Such a display will also be exempt from this policy. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

NOTE: This policy meets state and federal law. Federal law gives an exception, to the mandatory one-year expulsion for weapons possession or bringing to schools, for weapons that are lawfully stored in a locked vehicle on school property. Boards wishing to adopt this exception should amend this policy to reflect that and direct the administration to develop the required procedures designed to ensure student safety. SMOKING - DRINKING - DRUGS

The board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of beer, wine, alcohol, tobacco, other controlled substances, or "look alike" substances that appear to be tobacco, beer, wine, alcohol or controlled substances by students while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered buses; while attending or engaged in school activities; and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes, tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities. Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program shall include:

- Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;
- A statement that students may be required to successfully complete an appropriate rehabilitation program;
- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;
- A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and
- Notification to parents and students that compliance with the standards of conduct is mandatory.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

SEARCH AND SEIZURE

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and articulable suspicion that a school district policy, rule, regulation or law has been violated. The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered buses; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

SEARCH AND SEIZURE REGULATION

I. Searches, in general.

- A. Reasonable and Articulate Suspicion: A search of a student will be justified when there are reasonable grounds for the suspicion that the search will turn up evidence that the student has violated or is violating the law or school district policy, rules, or regulations affecting school order.

Reasonable suspicion may be formed by considering factors such as the following:

- (1) eyewitness observations by employees;
- (2) information received from reliable sources;
- (3) suspicious behavior by the student; or,
- (4) the student's past history and school record although this factor alone is not sufficient to provide the basis for reasonable suspicion.

- B. Reasonable Scope: A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the objectives of the search. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:

- (1) the age of the student;
- (2) the sex of the student;
- (3) the nature of the infraction; and
- (4) the emergency requiring the search without delay.

II. Types of Searches

A. Personal Searches

1. A student's person and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe the student is in possession of illegal or contraband items or has violated school district policies, rules, regulations or the law affecting school order.
2. Personally intrusive searches will require more compelling circumstances to be considered reasonable.
 - (a) Pat-Down Search: If a pat-down search or a search of a student's garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.
 - (b) A more intrusive search, short of a strip search, of the student's person, handbags, book bags, etc., is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.

SEARCH AND SEIZURE REGULATION

B. Locker and Desk Inspections

Although school lockers and desks are temporarily assigned to individual students, they remain the property of the school district at all times. The school district has a reasonable and valid interest in insuring the lockers and desks are properly maintained. For this reason, lockers and desks are subject to unannounced inspections and students have no legitimate expectations of privacy in the locker or desk. Periodic inspections of all or a random selection of lockers or desks may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such searches shall be confiscated by school officials and may be turned over to law enforcement officials.

The contents of a student's locker or desk (coat, backpack, purse, etc.) may be searched when a school official has reasonable and articulable suspicion that the contents contains illegal or contraband items or evidence of a violation of law or school policy or rule. Such searches should be conducted in the presence of another adult witness when feasible.

C. Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

INTERVIEWS OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper warrant.

STUDENT CONDUCT

The board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior allows teachers to communicate more effectively with students.

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

Students who fail to abide by this policy and the administrative regulations supporting it may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension up to ten days, probation, and expulsion.

A student who commits an assault against an employee on school district property or on property within the jurisdiction of the school district; while on school-owned or school-operated chartered vehicles; while attending or engaged in school district activities will be suspended by the principal or superintendent. Notice of the suspension is sent to the board president. The board will review the suspension to determine whether to impose further sanctions against the student which may include expulsion. Assault for purposes of this section of this policy is defined as:

- an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or
- any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or
- intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal, when the act is a reasonably foreseeable incident of such sport or activity, and does not create an unreasonable risk of serious injury or breach of the peace.

Removal from the classroom means a student is sent to the building principal's office. It is within the discretion of the person in charge of the classroom to remove the student.

Detention means the student's presence is required during non-school hours for disciplinary purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day, or on a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee disciplining the student or the building principal.

STUDENT CONDUCT

Suspension means; either an in-school suspension, an out-of-school suspension, a restriction from activities or loss of eligibility. An in-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days. An out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of-school suspension will not exceed ten days. A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

Probation means a student is given a conditional suspension of a penalty for a definite period of time in addition to being reprimanded. The conditional suspension will mean the student must meet the conditions and terms for the suspension of the penalty. Failure of the student to meet these conditions and terms will result in immediate reinstatement of the penalty.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

Following the suspension of a special education student, an informal evaluation of the student's placement will take place. The Individual Education Program (IEP) is evaluated to determine whether it needs to be changed or modified in response to the behavior that led to the suspension.

If a special education student's suspensions, either in or out of school, equal ten days on a cumulative basis, a staffing team will meet to determine whether the IEP is appropriate.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

STUDENT SUSPENSION

Administrator Action

A. Probation

1. Probation is conditional suspension of a penalty for a set period of time. Probation may be imposed by the principal for infractions of school rules which do not warrant the necessity of removal from school.
2. The principal will conduct an investigation of the allegations against the student prior to imposition of probation. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. Written notice and reasons for the probation will be sent to the parents.

B. In-School Suspension

1. In-school suspension is the temporary isolation of a student from one or more classes while under administrative supervision. In-school suspensions may be imposed by the principal for infractions of school rules which are serious but which do not warrant the necessity of removal from school.
2. The principal shall conduct an investigation of the allegations against the student prior to imposition of an in-school suspension. The investigation will include, but not be limited to, written or oral notice to the student of the allegations against the student and an opportunity to respond. In-school suspension will not be imposed for more than ten school days. Written notice and reasons for the in-school suspension will be sent to the student's parents.

C. Out-of-School Suspension

1. Out-of-school suspension is the removal of a student from the school environment for periods of short duration. Out-of-school suspension is to be used when other available school resources are unable to constructively remedy student misconduct.
2. A student may be suspended out of school for up to ten school days by a principal for a commission of gross or repeated infractions of school rules, regulations, policy or the law, or when the presence of the student will cause interference with the maintenance of the educational environment or the operation of the school. The principal may suspend students after conducting an investigation of the charges against the student, giving the student:
 - a. Oral or written notice of the allegations against the student and
 - b. The opportunity to respond to those charges.At the principal's discretion, the student may be allowed to confront witnesses against the student or present witnesses on behalf of the student.
3. Notice of the out-of-school suspension will be mailed no later than the end of the school day following the suspension to the student's parents and the superintendent. A reasonable effort shall be made to personally notify the student's parents and such effort shall be documented by the person making or attempting to make the contact. Written notice to the parents shall include the circumstances which led to the suspension and a copy of the board policy and rules pertaining to the suspension.

D. Suspensions and Special Education Students

1. Students who have been identified as special education students may be referred for a review of the student's Individual Education Program (IEP). The IEP may be revised to include a continuum of intervention strategies and programming to change the behavior.
2. Students who have not been identified as special education students may be referred for evaluation after the student's suspension to determine whether the student has a disability and is in need of special education.

EXPULSION

Only the board may remove a student from the school environment. The removal of a student from the school environment, which includes, but is not limited to, classes and activities, is an expulsion from school.

Students may be expelled for violations of board policy, school rules or the law. It shall be within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

It shall be within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal shall keep records of expulsions in addition to the board's records.

When a student is recommended for expulsion by the board, the student shall be provided with:

1. Notice of the reasons for the proposed expulsion;
2. The names of the witnesses and an oral or written report on the facts to which each witness testifies unless the witnesses are students whose names may be released at the discretion of the superintendent;
3. An opportunity to present a defense against the charges and provide either oral testimony or written affidavits of witnesses on the student's behalf;
4. The right to be represented by counsel; and,
5. The results and finding of the board in writing open to the student's inspection.

In addition to these procedures, a special education student must be provided with additional procedures. A determination should be made of whether the student is actually guilty of the misconduct. A staffing team should determine whether the student's behavior is caused by the student's disability and whether the conduct is the result of inappropriate placement. Discussions and conclusions of this meeting should be recorded.

If the special education student's conduct is not caused by the disability, the student may be expelled or suspended for a long-term period following written notice to the parent and pursuant to the school district's expulsion hearing procedures. If the misconduct is caused by the disability and a change in placement is recommended, the change must be made pursuant to the placement procedures used by the school district.

The principal will inform the board of the dollar amount to be charged to students or others for fines, charges, or fees annually. STUDENT DISCLOSURE OF IDENTITY

It is the goal of the district to provide a safe and supportive educational environment in which all students may learn. As part of creating that safe educational environment, no employee of the district will provide false or misleading information to the parent/guardian of a student regarding that student's gender identity or intention to transition to a gender that is different from their birth certificate or certificate issued upon adoption.

If a student makes a request to a licensed employee to accommodate a gender identity, name, or pronoun that is different than what was assigned to the student in the student's registration forms or records, the licensed employee is required by Iowa law to report the request to an administrator. The school administrator receiving the report is required by Iowa law to report the request to the student's parent/guardian. This requirement also applies to all nicknames.

To maintain compliance with Iowa law and also provide efficiency in the reporting requirements listed above, the Superintendent will provide the opportunity for parents and guardians to list in the student's registration paperwork any and all nicknames used for students.
