

PROGRAM FOR TALENTED AND GIFTED STUDENTS

The board recognizes some students require programming beyond the regular education program. The board shall identify students with special abilities and provide education programming.

It shall be the responsibility of the superintendent to develop a talented and gifted program which provides for identifying students, for program evaluation, and for training of employees.

Legal Reference: Iowa Code §§ 257.42-.49 (2005).

PROGRAM FOR AT-RISK STUDENTS

The board recognizes some students require additional assistance in order to graduate from the regular education program. The board shall provide a plan to encourage and provide an opportunity for at-risk students to achieve their potential and obtain their high school diploma.

It shall be the responsibility of the superintendent to develop a plan for students at-risk which provides for identifying students, for program evaluation, and for the training of employees.

RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations. Students who are allowed to be excluded from a program or activity which violates their religious beliefs shall be required to do an alternate supervised activity or study.

In notifying the superintendent, the parents shall abide by the following:

- The notice shall be in writing;
- The objection shall be based on religious beliefs;
- The objection shall state which activities or studies violate their religious beliefs;
- The objection shall state why these activities or studies violate their religious beliefs; and
- The objection shall state a proposed alternate activity or study.

The superintendent shall have discretion to make this determination. The factors the superintendent shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available superintendent-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Students in grades nine through twelve may receive academic or vocational-technical credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. The student may receive academic or vocational-technical credits through an agreement between a post-secondary educational institution or with the board's approval on a case-by-case basis.

Students in grades nine through twelve who successfully complete courses in post-secondary educational institutions under an agreement between the school district and the post-secondary educational institution shall receive academic and vocational-technical credits in accordance with the agreement.

Students who have completed the eleventh grade but who have not completed the graduation requirements set out by the board may take up to seven semester hours of credit at a post-secondary educational institution during the summer months when school is not in session if the student pays for the courses. Upon successful completion of these summer courses, the students shall receive academic or vocational-technical credit toward the graduation requirements set out by the board. Successful completion of the course shall be determined by the post-secondary educational institution. The board shall have complete discretion to determine the academic credit to be awarded to the student for the summer courses.

The following factors shall be considered in the board's determination of whether a student will receive academic or vocational-technical credit toward the graduation requirements set out by the board for a course at a post-secondary educational institution:

- the course is taken from a public or accredited private post-secondary educational institution;
- a comparable course is not offered in the school district. A comparable course is one in which the subject matter or the purposes and objectives of the course are similar, in the judgment of the board, to a course offered in the school district;
- the course is in the discipline areas of mathematics, science, social sciences, humanities, vocational-technical education, or a course offered in the community college career options program;
- the course is a credit-bearing course that leads to a degree;
- the course is not religious or sectarian; and
- the course meets any other requirements set out by the board.

Students in grades eleven and twelve who take courses, other than courses taken under an agreement between the school district and the post-secondary educational institution, shall be responsible for transportation without reimbursement to and from the location where the course is being offered.

Ninth and tenth grade talented and gifted students and all students in grades eleven and twelve will be reimbursed for tuition and other costs directly related to the course up to \$250. Students who take courses during the summer months when school is not in session shall be responsible for the costs of attendance for the courses.

INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Students who fail the course and fail to receive credit shall reimburse the school district for all costs directly related to the course. Prior to registering for the course, students under age eighteen shall have a parent sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit for the course. Students who fail the course and fail to receive credit for the course for reasons beyond their control, including, but not limited to, the student's incapacity, death in the family or a move to another district, may not be responsible for the costs of the course. The school board may waive reimbursement of costs to the school district for the previously listed reasons. Students dissatisfied with a school board's decision may appeal to the AEA for a waiver of reimbursement.

The superintendent shall be responsible for annually notifying students and parents of the opportunity to take courses at post-secondary educational institutions in accordance with this policy. The superintendent shall also be responsible for developing the appropriate forms and procedures for implementing this policy.

DUAL ENROLLMENT

The parent, guardian, or custodian of a student receiving competent private instruction may also enroll the student in the school district. The student shall be considered under dual enrollment. The parent, guardian, or custodian requesting dual enrollment for the student should notify the board secretary prior to the third Friday of September each year on forms provided by the school district. On the form, they shall indicate the extracurricular and academic activities in which the student is interested in participating. The forms are available at the central administration office.

A dual enrollment student is eligible to participate in the school district's extracurricular and academic activities in the same manner as other students enrolled in the school district. The policies and administrative rules of the school district shall apply to the dual enrollment students in the same manner as the other students enrolled the school district. These policies and administrative rules shall include, but not be limited to, athletic eligibility requirements, the good conduct rule, academic eligibility requirements, and payment of the fees required for participation.

A dual enrollment student whose parent, guardian, or custodian has chosen standardized testing as the form of the student's annual assessment will not be responsible for the cost of the test or the administration of the test.

The school district shall notify the dual enrollment student of the extracurricular and academic activities in which the student wishes to participate.

It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

FOREIGN STUDENTS

Foreign students must meet all district entrance requirements including age, place of residence and immunization. Foreign students must be approved by the board. The board reserves the right to limit the number of foreign students accepted. Students who are citizens of a foreign country will be considered residents if they meet one of the following requirements:

- The student resides with his/her parents(s) or legal guardian;
- The student is in the United States with appropriate documentation (Form I-20) from the United States Department of Justice-Immigration and Naturalization Services; or
- The student is a participant in a recognized foreign exchange program; and
- The student is physically able to attend school and has provided the school district with such proof, including a current TB test.

VIRTUAL/ON-LINE COURSES

The board recognizes that on-line coursework may be a good alternative for students to not only meet graduation requirements but, also have the opportunity to take advanced or other courses not offered by the school district.

High school students may earn a maximum of 4 credits to be applied toward graduation requirements by completing on-line courses offered through agencies approved by the board, such as the Iowa On-Line Learning. Credit from an on-line or virtual course may be earned only in the following circumstances: *(Choose from the following or add others that fit the policy of the school district.)*

- The course is not offered at the high school;
- Although the course is offered at the high school, the student will not be able to take it due to an unavoidable scheduling conflict that would keep the student from meeting graduation requirements;
- The course will serve as a supplement to extend homebound instruction;
- The student has been expelled from the regular school setting, but educational services are to be continued; or
- The principal, with agreement from the student's teachers and parents, determines the student requires a differentiated or accelerated learning environment.

Students applying for permission to take a virtual course shall complete prerequisites and provide teacher/counselor recommendations to confirm the student possesses the maturity level needed to function effectively in an on-line learning environment. In addition, the express approval of the principal shall be obtained before a student enrolls in an on-line course. The school must receive an official record of the final grade before credit toward graduation will be recognized.

Provided courses are part of the student's regular school day coursework and within budgetary parameters, the costs for a virtual course, such as textbooks or school supplies, shall be borne by the *(pick one – school district, parents)* for students enrolled full-time.

It is the responsibility of the superintendent to develop administrative regulations to implement this policy.
