

Elementary Board Report August 2024

As an admin team, we kicked off the school year with our SAI conference. We were able to listen to various keynote speakers and attend a variety of breakout sessions. I know that I was able to walk away with a lot of new learnings that I was able to share with staff.

It was so nice to welcome all of our staff back! We had Urkeru training on Wednesday, New Teacher Orientation on Thursday and everyone returned on Friday. We are excited to welcome the kids back for the first day of school.

The elementary staff had a great first couple of days of PD. This year the majority of our professional development focus will be on LETRS training to support our district's focus on improving student literacy. We will also be engaging in professional development for Reveal Math, our new math curriculum.

We are excited to welcome our new staff members and are very grateful for your approval of additional sections this year in PK4, Kindergarten, 1st, and 3rd. We've gotten so many move-ins, I'm not sure what we would have done with 4 sections in all of those grade levels!

A huge shout out to the custodial staff who worked so hard over the summer to make sure our classrooms were ready to go when teachers arrived. They moved and painted many classrooms at the elementary. We are so thankful for their hard work and dedication to making our schools look nice!

We have our open house on Wednesday, August 21 from 2-6 where students and parents are able to come in to meet their teachers, see their classrooms, and get their supplies put away.

We are excited to begin a new school year and I believe great things are going to continue to happen at NHE!
