

## **Elementary Principal Board Report for October 2020**

1. Attendance has been great, school seems to be running very smooth at this point.
2. October 9th did freezy pops outside at recess with all kids adjusting so well coming back.
3. ALL FAST testing for Reading and Math is complete- looking at students and where they place and levels for classroom instruction
4. Professional development on October 19th: Zoom Conference Scheduling and Literacy series for 2020-2021 school year
5. Distance Learning went to program Edgenuity Sept 28th- some families not liking it (3 student came back face to face, 2 students moved out of district, so we have 5 left in the program)
6. October 16th: First Quarter PBIS parties for students who have 5 minors or less, or two majors or less. Definitely not the way we are used to celebrating. We are trying to find something for them to do. No Field trips
