---------------	--------------------

Gothic frame with 5' straight sides, Featuring: 2-3/8" dia arches on 6' spacing. You will need (treated) lumber to frame gables (2x4/4x4), for hip boards (2x6), for baseboards (2x8/2x10), and doors. Includes 2 layers of plastic, roll-up sides & polycarbonate to sheet ends with. You may need electrical wiring, propane and water lines. Optional items we carry are: Drop Curtains, roll-lock (recommended to lockdown roll-up sides especially when heating), galvanized square tubing (for gables), heaters, exhaust and circulating fans, air inlet shutters and motors, black ground cover, temperature alarms, purlins/conduit for hanging baskets or plant support & shade cloth.

We supply only a pile of steel, boxes of hardware, aluminum, plastic, several pages of instructions, this catalog and our phone no. You need to figure out what all the parts are and where they go, do all the site work, hammering, leveling, cutting, drilling, lifting and finally avoid flying a kite when you pull the plastic!
