

9/16/19 HS Report to the Board

1. We are at the beginning of homecoming week! Please feel free to join us for any or all of our activities during "Friday Night Lights". We have dress up days, an all school rally, parade and coronations planning in addition to the game Friday and dance Saturday.
2. The building leadership team will be focusing on self- assessment and internal problem solving around staff generated concerns this year. Our first task is attendance followed by building communication and culture.
3. Our first few weeks of school have run fairly smoothly. We have had to iron out some issues around lunch and the sharing of our lunchroom. This has included doing some staggering of schedules as we transition to sharing a campus.
4. This next month, several staff will be joining Mr. Jurrens and me at the National Post-Secondary Institute in Ankeny for two days. The goal of this institute is to continue to grow our responses to the needs of the community and state around college and career readiness.
