MEET A LEGEND

PERFORMANCE YOU DEMAND. RELIABILITY YOU TRUST.

WITH A SOLID INDUSTRY REPUTATION, HIGH QUALITY PRODUCTS, DEDICATED EMPLOYEES, KNOWLEDGEABLE DISTRIBUTOR NETWORK AND GENERATIONS OF LOYAL CUSTOMERS, IT'S UNDENIABLE THAT QUINCY COMPRESSOR MANUFACTURES AMONGTHE WORLD'S FINEST AIR COMPRESSORS.

Established in 1920, Quincy is a leading designer and manufacturer of reciprocating and rotary screw air compressors, vacuum pumps and a full line of air treatment components.

Quincy Appears in Multiple Markets

Headquartered in Bay Minette, Alabama, Quincy serves an array of markets with a broad range of high performing products. A global network of expert channel partners provide customers with sales and service solutions designed to resolve the most difficult compressed air challenges.

Products and Services

- Rotary screw and reciprocating air compressors and vacuum pumps, ranging from one-third to 350 horsepower.
- The company supplies more than 12,000 parts and accessories and can deliver within 24 hours from its centralized warehouse.

QT-10 Reciprocating Air Compressor

Image for reference only

Technical Information:

Capacity (ACFM):

35

Horsepower:

10

Available Pressure (PSIG):

175

Weight:

1660

Dimensions:

106 x 30 x 64

Product Description:

The Quincy QT series is designed for maximum productivity and efficiency; it is the reliable choice for light industrial and commercial applications. The QT-10 heavy-duty cast-iron construction and quality components make it more than a match for tough working conditions. The aluminum head dissipates heat to ensure the compressor is running as cool as possible while the Quincy valve design provides the highest volumetric efficiency available. Leading the industry with the most CFM per brake horsepower, the Quincy QT-10 delivers more air and consumes less energy.

Key Features & Benefits:

- Splash lubrication system to distribute oil.
- Standard features for tank and base mount units - EISA 3-phase 60hz motors, OSHA style belt guard, pressure sensor for start/stop control.
- Standard features for tank mount units - ASME coded tank & pressure relief valve, manual tank drain, and pressure gauge in receiver.
- Optional NO BULL Warranty 3-Year Pump/ 2-Year Package Warranty
