Kwik Star offers both a carry card and/or an in-store card option. Our Data Tracker program offers the ability to capture date, time, location, product type, gallon amount, price per gallon on each transaction. Your account can also be set-up to capture information on each driver and/or each vehicle. The ability to lock-out or restrict certain products can also be placed onto your account. Every one of these features is offered at no cost. All information is provided on a monthly billing invoice. Kwik Trip also offers on-line access for you to view account activity.

Kwik Trip/Kwik Star has a winter fuel blending strategy that we implement from the month of November until the end of March. The blending percentage of the diesel fuel during the winter months will change accordingly with any drop in temperature.
