

1. I failed to mention in May's Board Report - the 8th graders participated in our Ditch Clean up Day led by Kristie Brincks and the 8th grade team in partnership with the Lion's club. The students did a great job with our two mile stretch of highway. Thank you to all that helped with this.
2. Students and staff had a lot of fun during the end of the year (CLT planned) Carnival Celebration. Students worked very hard right up to the end when iPads were checked. Students closed the school year out with lots of laughter and fun. Students played various yard games, tossed water balloons, participated in dunking the teachers in the dunk tank, ate popcorn, candy or cupcakes if they won on the various games, and much more. It was a great way for the 5th-8th grade CLT members to organize the event and take charge in setting up a fun day for all involved.
3. Students were recognized for their activities this year during a Pep assembly on the last day of school. It was a great way to wrap up the very successful 2021-22 school year.
4. During the end of the year Professional Development, teachers worked on getting their rooms back to normal. We also spent some time looking at data (ISASP, mySaebrs, school index report card) and talking about what interventions we need to continue and what we need to add/change for next year.
5. Towards the end of May, 8th graders participated in a successful Rocket Day, utilizing the new grass area. It was great to have the kids fire the rockets off here and not have to travel to park. Students were able to apply Newton's laws in a real world application.
6. Special thanks to all custodians for getting the building looking shiny and new again, the hallways and carpets are clean on the second floor. Also thank you to all of the food service staff and workers that are getting meals out to kids this June.
