

Elementary Board Report March 2025

The elementary raffle has kicked off and students have begun selling their raffle tickets. Huge thank you to Rapid Printers for donating our tickets this year!

We wrapped up the Kids Heart Challenge and the elementary students rocked this fundraiser! We raised \$8,441.28, had 46 kids complete Finn's challenge, 137 students registered, and 73 families learned Hands-Only CPR.

School Achievements

Our Stats

We were able to have Jason Martin-Hiner come in from the AEA to judge our top 10 inventions. He named our top 3 winners along with an honorable mention. The students did a great job and this provided them another opportunity to present their invention to an outside judge. 1st place: Melia (The Sheepy Shoe) 2nd place: Blaze (The Pet Proportioner) 3rd place: Lyndin (Easy Feed Holder) Honorable Mention: Hudson (Football Mania). A big thank you to Lynette Schwickerath and Morgan Walz for lining this up!

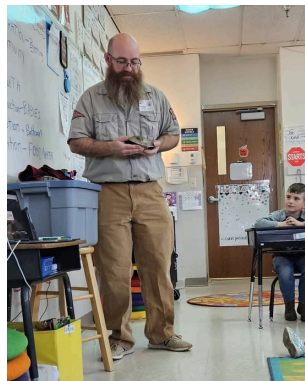

We celebrated Read Across America Week. We had many community guest readers who came in and read to our students! Thank you to all our community members for coming and reading to the kids! They sure loved it!

Our Time for Kids magazines have been encouraging students to do kindness activities in the community. One of our very own students, Charleigh, suggested that fourth graders make cards for people in the nursing home to let them know others are thinking of them. What a great way to show kindness to others!

1st grade students had a visit from Mr. Matt Crayne. Who came in and helped them kick off their living organisms unit. The kids were such good listeners!

We also have our elementary book fair going on at the moment. It was open during parent-teacher conferences. With this book fair we did the Share the Fair fund- which is a fund to help students who may not necessarily get to shop the book fair get the opportunity to. The majority of our families who shopped at the fair chose to round up their totals and we'll be able to impact quite a few kids at the elementary!
