Jay,

On behalf of the ministerial group in town, we are giving our blessing for youth coach's to be able hold practices on Wednesday's up until 5:30 pm. We have respected that you have honored our request to keep Wednesday reserved for church activities. We know that during the basketball season, gym space is limited and with a program that is growing we don't want to hinder an opportunity for kids to practice. By ending practices by 5:30 it will allow for parents to be able to get their children to church activities, which usually start at 6 pm. This should allow for a few more hours for coach's to utilize the gym if it is available. If you have any further questions please let me know. I have also copied Pastor Kevin Frey on this email, who serves as President of the ministerial group.
