Update to school facilities usage on Sunday's

The ministerial association would like to propose an update to the current policy adopted on Monday, January 12th, 2015, for school facility usage regarding Sundays for athletic activities that states facilities are available after 1:00 p.m. We are recommending that up to (3) exceptions may be made during the year to accommodate requests that may come in so that activities could start earlier on Sundays as we know gym space or other factors may limit activities that could occur.
