

STRAWBERRIES AVAILABLE FOR FEBRUARY / MARCH FUNDRAISING SALES

Minimum order is one pallet which contains 108 flats (cartons). The strawberries are packed in covered plastic quart size containers with eight containers to a flat. We suggest selling the strawberries by the whole flat or by the half flat.

Orders must be placed 14 days prior to your delivery week.

The strawberries are picked, hydro cooled and shipped out on refrigerated trucks the same day.

It is very important that you have your customers receive their order on the day the strawberries arrive to you.

Strawberries are very perishable and must be refrigerated or they will spoil quickly.

Florida strawberries are in peak flavor in March and are sweet, juicy and loaded with health benefits. Local strawberries are not available in your area at this time which makes this fundraiser extra appealing to your customers. Everybody loves the sweet taste of strawberries!

This is a fundraiser that you will want to do every year and will be well supported by repeat customers!

Please give us a call if you have any questions or if you would like to conduct a sale.
